About GoldyTools EDB Viewer

A strong tool for recovering corrupt and unavailable EDB files is Goldytools EDB Viewer tools. It expertly handles the recovery of Exchange Server's private and public folders.

GoldyTools EDB Viewer: Save the items to new or existing PST files after recovering mailboxes from corrupted Exchange database files. Even deleted items are recovered by the utility from highly damaged EDB files. Anyone can do the operation thanks to the user-friendly software's Interface. The tool also has a trial version that may be downloaded, installed, and used to your satisfaction.

- Saves specific EDB file data to an existing or brand-new PST file
- Search for EDB files on a certain system drive
- Has two sophisticated scanning settings for data in EDB files

Pre-requisites & System Requirements

- Pentium Processor
- Minimum 512 MB RAM (1 GB recommended)
- 512 MB of free hard disk space for Software installation

Supported Versions

- Supported Operating Systems- Supports Windows 11, Windows 10, Windows 8, Windows 7, Vista, XP (32/64bit Version)
- Supported MS Outlook platforms- Supports Outlook 2000 to 2021 All Editions (32/64bit Version)

2. Install Goldy For EDB to PST Converter

2.1 Installation

Your step-by-step tutorial to installing Goldytools EDB Viewer Software:

To be able to seamlessly install Goldytools EDB Viewer Software on your computer, simply execute the steps given below:

- First and foremost, ensure that your host computer meets the minimum system requirements and has ample memory available.
- After that download Goldytools EDB Viewer software from the website: <u>http://www.goldytools.com</u>
- You would then need to double-click on the Goldytools EDB Viewer software installer.
- Simply, go through and follow the instructions as given on the screen. You would finally get to see the setup installation completion screen. Here, click on the Finish button which would then open the main screen of the GoldyTools EDB Viewer.

2.2 Uninstallation

How to uninstall Goldytools EDB Viewer Software?

There are two simple ways of uninstalling Goldytools EDB Viewer software from your computer system:

- Option 1: By using the Windows Start menu.
- Option 2: By using the Control Panel.

Kindly note: Be cautious about the fact that the Goldytools EDB Viewer Software is not running in the background of your computer.

Uninstalling using the Windows Start menu

- Go to your computer desktop and click on the Start button from the Windows menu.
- Go to All Programs > Goldytools EDB Viewer> Uninstall GoldyTools EDB Viewer.
- You would see a warning message confirming the uninstallation of the software on your computer screen. To confirm, click on the Yes button to Uninstall GoldyTools EDB Viewer.

You would then be able to successfully uninstall Goldytools EDB Viewer software from your computer system.

Uninstalling using the Control Panel option

- Go to your computer desktop and click on the Start Menu > Control Panel and then double click the Add or Remove Programs icon. Choose the Goldytools EDB Viewer and then click on Remove.
- You would then see a warning message confirming the uninstallation of Goldytools EDB Viewer Software.
- To confirm, simply click on the Yes button to uninstall the Goldytools EDB Viewer Software.

You would then be able to successfully uninstall Goldytools EDB Viewer software from your computer system.

Understanding the Menu Bar and Tool Bar

Menu Bar

Export Mailboxes

You can export one or more mailboxes in PST format using this option. You have the option of exporting either the whole EDB's mailboxes to a new or existing PST, or just one specific mailbox.

You can export all the EDB's mailboxes in PST format with this option. A unique PST file will be exported for each mailbox in the EDB.

By default, the Mailbox name will be used for the PST file. Moreover, it is possible to just export certain mailboxes.

The actions listed below must be taken to export mailboxes from EDB:

From the Pop Up, right-click on the root folder of the EDB source and choose the option to Export Mailboxes.
